THE DAILY NEWS.

Newport:

WEDNESDAY MARCH 22, 1848.

BY O. F. JACKSON, 91-THAME SST.

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of Letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

Company H, of the New England Regiment, composed of New Hampshire's noble sons, was the subject of remark, from their fine appearance while at Fort Adams some time since, preparatory to taking their departure for Mexico. This company was composed of ninety men, strong, while here; but alas! barely three of that noble lot of men are fit for duty now. The following extract from a letter written by a member of the company, tells the fate of some of them:

"And now a word about Company H, in which I first enlisted—that large company of over 60 men at Fort Adams. They left orderly Sergeant J. Bedell sick at Vera Cruz; also Corporal Morrill. They lost a drummer at Jalapa—lost four or five sick at Perote—a number more at Puebla. At Contreras, Lieut. Cram was wounded in the hand. At Churubusco, Sergeant Stowell of Concord, received a wound, from the effects of which he died four days after. One private was instantly killed. At the taking of the castle, two privates, King and Swett were wounded—Swett has since died of his wounds. After the castle was taken, and our Regiment lay under some arches, expecting to charge upon the city, a shell from one of their batteries struck and exploded in one of the arches where some of the men of Company H were sitting. Its consequences were terrible. In the first place it struck a man by the name of Postes Edson, on the back, and exploded literally tearing him in pieces. The fragments flew in all directions, cutting off both legs of Sergeant Spencer, who died the same day, killing Corporal Barnes, taking off one of Sergeant Pike's legs, and slightly wounding two or three more. Besides these, there has been a number of deaths since we have been in quarters. It seems to be an ill-fated company. They reckon only three men for duty now. Sergeant Pike has had three amputations on his leg, which was enough to try the fortitude of three common men, but he is a man of wonderful courage, and is found to live and get home in spite of Mexican shell and surgeon's instruments. He is getting along finely at present. Henry F. Carswell, a printer, whom you will recollect enlisted at Concord, died of a fever in September. He was a fine fellow, a good soldier, beloved by his comrades, who deplore the loss of one so unexpectedly called from their midst."

STEAMBOAT BURNED.—The steamer Raritan, plying between New York and New Brunswick, New Jersey, took fire while on her way to New York on Monday morning, and was run ashore on Bellow's Island, where she burnt to the water's edge, it being found impossible to extinguish the flames. She had on board about 250 passengers, some of whom jumped overboard in their fright, but were picked up by small boats; and others were taken off by the steamer Huguenot, which fortunately was near by at the time. No lives were lost, but a large number of cattle on board perished by the flames.

The Raritan was a boat near the size of the Governor.

There are 2,138 families in Kentucky, whose property is less than \$800; but to make up for this lack of worldly wealth, they have got more than eighty-six thousand children, which at one hundred dollars apiece, very cheap, would come to \$8,600,000. So they are not so badly off, after all.

Voltaire was very fond of talking English, and he used to converse in the language with Dr. Franklin. A young lady said to him one day that it would be more agreeable to the company if he would talk French. "My dear niece," said he, "you cannot imagine how proud I am to converse in the language of Dr. Franklin."

The man who rejoices at the down fall of another possesses an exceedingly low and grovelling disposition.

RIGHTS OF RAILROAD COMPANIES AND PASSENGERS.—In the Essex, (N. J.) Circuit Court, a suit involving the question of the rights of Railroad Companies and of passengers, was decided. A Methodist Clergyman, named Graves, brought a suit for damages for trespass against Mr. Gamble, the agent of the New Jersey Railroad Company. Mr. Graves was a passenger in the cars on the 21st of March last. Gamble came through the cars for the tickets when plaintiff paid him seventy-five cents; defendant asked him if he had a commutation ticket, and requested him to show it; some words ensued, and defendant said if he did not show his ticket, he would be obliged to put him out of the cars; which subsequently he did on a second refusal to show his ticket. The Court in its charge took the ground that the company must carry passengers for hire, but have a right to establish reasonable regulation on the road. The case is analogous to that of an innkeeper, who is bound, it is true, to entertain all who apply for entertainment at his house; but who is always entitled to lay down reasonable and proper rules to be observed in it; and he who enters as a guest, enters subject to those rules; and his right to remain lasts no longer than his compliance with them. The Court further said:

"The exercise of a clearly legal right by abuse may amount to trespass. If the passenger is wantonly insulted or his feelings outraged—if undue violence is used in removing him from the cars—or if an attempt be made to remove him by force before requesting him to depart; if he be removed from the cars in an unfrequented spot, far from human habitation, in the midst of a tempest in the darkness of midnight—in short, if any wanton act of aggression be committed upon the rights of the passenger; if there be any exercise of authority beyond what is clearly required by the necessity of the case, to protect the just rights of the Company, they become the aggressors, and are answerable in damages."

The jury took the same view of the case and the facts, and returned a verdict in favor of the agent, Mr. Gamble.

CONGRESSIONAL.—The death of Mr. Holley, of New York, having been announced on Saturday, both Houses passed the customary resolutions, and without transacting any other business adjourned to Monday. The Ten Regiment Bill passed the Senate on Friday, but with a pledge on the part of the Democratic members, that they will advise the President to appoint no general officers until after the result of the treaty project shall be made known to Congress.

The Hon. Lynn Boyd has declined the Kentucky nomination for Governor on the Democratic ticket.

A single piece of china, before it is finished, employs forty hands; from the man who pounds the flint, to the designer and colorer.

An exchange says that the alphabet may be transposed 624,448,401,723,360,000 times. All the inhabitants on the globe could not in a thousand million of years, write out all the transpositions, even supposing them to be employed ten hours a day.

This looks like a pretty big story, but as we have not time to prove it by going through all the transpositions, we will not question the truth of it.

There is no reason, says Polybius, the Greek historian, why we should not sometime blame, and sometimes commend the same person; for as none are always right, neither is it probable that they should be always wrong.

There are bipeds to be found in every community, who will let their temper run up as high as fever heat if a man has the presumption to criticize a single act of theirs, no matter how absurd it is. There are those in this community who should bear in mind Polybius' testimony.

The "Union Ball" came off at the United States Hotel on Monday evening, a lamed, with one exception, and that was, if report speaks truly, the introduction of pugilistic exercise at the close of the last Act in Scene first. Further the deponent saith not."

To believe a thing impossible, is the way to make it so, to us.

There was a "little nigger" in our city, says the Arkansas Intelligencer who had such long heels, that a wit observed that he was ten years old before it was decided which way the fellow would walk.

TRUTH BEAUTIFULLY EXPRESSED.—If there is any act which deserves deep and bitter condemnation, it is that of treating with the inestimable gift of woman's affection. The female heart may be compared to a delicate harp, over which the breathings of early affection wander, and each tender chord is awakened to tones of ineffable sweetness. It is music of the soul which is thus called forth—a music sweeter than the fall of the fountains or the song of the Hourri in the Moslem's paradise. But who for the delicate fashioning of that harp, if a change pass over the love which called forth its hidden harmonies.

Let neglect and cold unkindness sweep over its delicate strings, and they will break one after another—slowly perhaps—but surely, unvisited, unrequited love by the light of love, the soul-like melody will be hushed in the stricken bosom—like the moans of the Egyptian statue before the coming of the sunrise.

A SOVEREIGN REMEDY FOR A COUGH.—Divide a pint of water; in one half dissolve an ounce of rock candy—in the other half an ounce of gum arabic; strain it, and add one ounce of pargoric, and half an ounce of antimonial wine. A table spoonful morning and evening is a dose for an adult.—A desert spoonful for a child, and a tea spoonful for a little one. Should the cough prove troublesome, the dose may be repeated two or three times a day, as it is perfectly harmless.

The Sunday Dispatch says that a military company composed of "colored gentlemen" has recently been formed in New York, and also that a company of colored ladies are exhibiting as model artists.—Their graceful proportions must be bewitching.

Good nature is one of the sweetest gifts of Providence. Like the pure sunshine it gladdens, enlivens, cheers. In the midst of hate, revenge, sorrow and despair, how glorious its effects.

London contains 4000 tailors, 2400 boot and shoe makers, 2600 apothecaries, 2100 bakers, 17,100 butchers, 1700 scholars, 1100 apothecaries, 1700 green grocers, 1100 barbers; 1100 coal merchants 1000 chesamongers, 590 pawn brokers, 425 confectioners, 270 physicians and about 4800 public houses.

Never be afraid to do right because somebody will laugh at you. Never do wrong, because that same somebody will applaud you. Never be ashamed of an old hat, if it is the best you have.

A BARNAB.—"Sally," said a green youth, in a venerable white hat and gray pants through which his legs projected half a foot, "Sally, afore we go into this ere Museum to see the Enchanted Horse, I wants to ax you somethin'."

"Well, Ichabod, what is it?" "Why, you see this ere business is a-gwine to cost a quarter epeen, and I can't afford to spend so much for nuthin'. Now, ef you'll say you'll have me, darn'd if I don't pay the hull on't myself. I will positively."

Sally made a non-committal reply, which Ichabod interpreted to suit himself, and he strode up two steps at a time, and paid down the 'hull on't."

Cold Feet are an evidence that the blood is encumbered with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

Wright's Indian Vegetable Pills are one of the best preventives in the world against Cold Feet, because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

Beware of SUGAR COATED COUNTERFEITS.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by C. G. HAZARD, No. 59 Thames-st., Sole Agent for Newport; and by Nathan Dennis, Portsmouth; Sealbury & Almy, Tiverton Bridge; Arnold Smith, Tiverton Four Corners; H. F. Brown, Little Compton; W. A. Brown, Adamsville. Wholesale at the New England Office, 194, Tremont-st., Boston.

[Extract of a letter from Dr. Williams of Vt.] Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of scrofulous humor and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should like to have it as soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons.

A. Boyden, Esq. of Cambridge, cured of the dyspepsia of a year standing, after trying a hundred remedies without the least effect. For sale by R. J. TAYLOR.

Thirtieth Congress—First Session.

SENATE.—20th.—Mr. Badger obtained leave to bring in a bill concerning the true intent and meaning of the post office law authorizing the franking privilege to members of Congress, which was read twice and referred to the committee on the post office.

Mr. Yulle, from the committee on naval affairs, reported a joint resolution to promote the use of American hemp in the navy with an amendment, leaving it discretionary with the secretary of the navy.—The amendment was adopted and the subject postponed till to-morrow.

Mr. Ashley obtained leave to bring in a bill to regulate fees in the federal courts, which was read twice and referred to the committee on the judiciary.

The Senate then proceeded to the consideration of the deficiency bill, which, after considerable discussion was rejected, by a vote of 13 to 28.

HOUSE.—Mr. Sawyer moved to take up the bill which he previously introduced making provision to bring home the American dead in Mexico, and spoke briefly in support of the bill. The bill was read twice and referred to the committee on military affairs.

Mr. Clingham moved to suspend the rules in order that he might offer a resolution asking the President why the Scott and Trist correspondence with the government had not been communicated. Objections were made to the inquiry by Mr. Houston, of Alabama. The motion to suspend was negatived.

A message was received from the President, communicating said correspondence, and the usual number of copies ordered to be printed.

Mr. Crozier moved to suspend the rules that he might offer a resolution of inquiry to the secretary of war respecting moneys collected in Mexico and their disposition—lost.

On motion of Mr. Vinton, the House went into committee of the whole, Mr. Rockwell, of Massachusetts, in the chair, and took up the Indian appropriation bill.

Mr. Sawyer addressed the House in relation to the Choctaw school mission, and charged fraud and corruption somewhere.

Mr. Johnson, of Arkansas, pronounced the charge false, and great confusion prevailed for some time.

Order being restored, Messrs Vinton and Thompson explained. Several members also addressed the committee in succession. The House, after rising from committee, adjourned.

Boston, Dec. 10th, 1846. This may certify that I have used Pool's Lotion, (as prepared by Messrs Ames and Olds) for Scalds, Burns, Bruises, &c., and am happy to say that I believe it is all it purports to be.

JOSEPH KENDALL, at H. N. Hooper & Co., Commercial St. I can cheerfully testify to the above as I have known its good effects for two years.

UNITED STATES HOTEL, On Pearl, Fulton and Water sts., New York, BY H. JOHNSON.

THIS is one of the largest and best kept Hotels in the city of New York. Board \$1.50 per day. Its location is particularly convenient for business men, and Mr. Johnson, the popular and genial manly landlord, makes the comfort of his guests a constant study.

To enable Mankind to Die of Old Age without Disease.—The public may not be aware that the Rev. B. Hibbard's Vegetable Pills are the very best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked.

ed. Disease comes like a thief in the night, and in times of peril, anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Congestive and Billious Diseases are rife throughout the land. To travellers, emigrants, soldiers, and families, we say neglect not to provide yourself with so potent a preserver of the blood; so safe, mild, and universal a remedy as these sovereign Vegetable Pills. Remember the name of Rev. B. Hibbard is on the label of each box. All others are spurious. T. R. Hibbard, M. D., 26 John-st., New York, proprietor. See advertisement in another column. 1848

CAUTION.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as Brown's Sarsaparilla and Tomato Bitters. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomato, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Impurities of the Blood, bad Humors, Scrofulous diseases, Billious affections, Costiveness, less of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt. But this compound is the best alternative now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medical qualities of this most valuable root.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists.—We have now a clear understanding of the different action of elements, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth.—The great object, therefore, is ascertain what remedy will act most directly upon the constituents of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SAND'S SARSAPARILLA is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppurations of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Prepared and sold by A. D. & D. SANDS, Druggists, 100 Fulton st. N. Y. Sold also by Dr. R. R. Hazard and R. J. Taylor Newport, by J. Russell, Fall River, by C. Dyer, For sale by R. J. TAYLOR.

JONE'S SOAP. Ladies in the country and watering places, See how the sun has burnt your faces! Look at your necks—how yellow, dark with tan. Why, 'twill repulse the love of any man! Those freckles, too, you know they'd quickly fly If Jone's Soap you'd use; come once—do try—It costs but fifty cents, and I am told It's worth, aye, doubly worth, its weight in gold. Persons who have had no faith in it, have been astounded at the wonderful effect of Jone's—that is, the genuine Jone's Soap—in beautifying the skin. For sale by Dr. R. J. Taylor.

Mutual Benefit Life Insurance Co.

(Office No 21 Wall-st., N. Y.)

Advantages secured by the System of Life Insurance now in successful operation in this company.

- 1st. Those in good health, of the proper age, and of sound constitution, will be insured at the lowest rate of premiums.
 - 2d. The premium, if over \$50, can be paid one-third in cash, and two-thirds in a secured note at 12 months, bearing 6 per cent. interest, and subject to assessments if required, or it may be paid weekly, monthly, or quarterly.
 - 3d. Annual division of profits in scrip certificates which bear 6 per cent. interest, and if required a loan of two-thirds on the scrip will be made in cash—or the profits can be added to increase the sum insured.
 - 4th. No persons are liable beyond the amount of their premiums.
 - 5th. Married women may insure the lives of their husbands, secure from any demands of their creditors, if the premium does not exceed \$300 per annum.
 - 6th. Creditors may insure their debtors; or debtors themselves, for the protection of creditors.
 - 7th. An insurance can be made so that the sum insured will be paid on attaining a specified age, or sooner in the event of death.
 - 8th. All claims on policies will be paid three months after notice and proof of death.
 - 9th. No risk will be taken on any one life exceeding \$5000, until the surplus profits amount to \$50,000; then the amount of risk on a single life will be gradually extended as the funds of the Company augment.
 - 10th. No Director or Officer can obtain a loan of the Company.
 - 11th. When the net profits of the Company amount to \$200,000, the excess will be applied towards the redemption of Scrip, giving priority to that first issued; but the amount of \$200,000, in addition to the reinsurance fund, will be kept as a permanent fund, in which the members have a *pro rata* interest.
 - 12th. The funds of the Company to be invested by the Finance Committee in bonds and first mortgages on unencumbered real estate, the actual value of which is twice the amount loaned—or in stocks of the United States, or of the States of New York, New Jersey, Massachusetts, and Maine, or loaned to members on their Scrip.
 - 13th. No part of the profits is withheld, or diverted from the assured in any way.
 - 14th. There is no stock or loan, either nominal or real, to pay interest for; the company having ample capital in the premiums received.
 - 15th. It enables a man to provide for a wife and children, in such a way, that although he may lose all, *they are safe*; and all persons, whether married or unmarried, to provide for old age, sickness, and want, as well as for death.
 - 16th. It does not reckon the insured a year older than he is—but from six months less, to six months more, so as to equalize the same between all parties.
 - 17th. It pays no directors, auditors, or solicitors.
 - 18th. A portion of the directors and the officers are chosen yearly, and the members vote according to interest.
 - 19th. The assured can surrender the policy at any time after a term of years, and receive its equitable value.
 - 20th. Every precaution is taken to prevent a forfeiture of policy.
- The Mutual Benefit Life Insurance Company, is authorized by its charter to make all and every Insurance pertaining to or connected with Life risks, of whatever kind or nature, and will grant annuities and make endowments, as by the Act of Incorporation, passed the 30th January, 1845.
- The Directors of this Company, deeply impressed with the very great, useful, and growing importance to the community at large of Life Insurance, would call the attention of the public to the following observations as principles, as intended to explain to them its peculiar advantages, and the particular features of this valuable institution. It is seen above how extensive the privileges are, reaching to every risk pertaining to or connected with life; guarding and supporting infancy to old age; in all grades of professions and trades; orphans, widows and their children, by a small annual investment, on the principle of Mutual Benefit, arising from Mutual Insurance, being a self-protective society. In this there is no Money Stock; the funds or capital arise from premiums paid in when persons make insurance, and these form the means to make payments on policies, grant loans, pay expenses, and yield profits. All persons insured become members, but are not liable beyond the amount of the premiums to be paid by them. The books of the company are open to them, to see that the sums paid, or securities received, are deposited or invested according to the charter, and the net profits, at fixed periods, are divided among them, as hereafter explained. The table of figures, and the rules, are made and calculated with accuracy, after the experience and practice of old English companies, and all persons can see by them how much they have to pay, and the returns they will be likely to receive. This plan is a feature of the Savings Bank and Mutual Insurance, affording the security of the one, and gain of the other, and is entirely benevolent in its operation; it also embraces a provision for Married Women to insure the lives of their husbands for any amount, the premium of which shall not exceed \$300 per annum, and is secured to them against any demands in law, of creditors.
- The greatest portion of society, who by daily exertions in the busy earn support, as *artisans and mechanics*, deriving livelihood from personal labor and skill, seldom resort to Life Insurance, in any numbers, for a future provision for their families, though it none would it be so important as to them, who by sickness and death, may in a day, leave those nearest and dearest to them in poverty. To men in mercantile pursuits and those in professional business of every rank and class, or those who have uncertain or small incomes, and who are most numerous in wealth in the aggregate, and have it in their power to provide against the vicissitudes they are constantly exposed to, Life Insurance is also of the utmost importance; they, and those in lower circumstances, are often deterred from entering into contracts of insurance, as the advantages appear remote—being contingent on death, or ability to pay the premiums.
- To assist all such, this Mutual Benefit society so arranges the payment of the premiums, and of returns in part of the same, as to enable all persons to become members, and enjoy its advantages while living; thus protecting themselves in life, and providing for their families after their death; in this way a short life may obtain, and leave to their heirs a long one.
- This Company will grant insurances on lives, on

the Mutual principle, to applicants upon their own lives, or the lives of others, for the whole duration of life; or for a limited period, at the rates specified in the tables, for sound and healthy persons. Also, any person in sound health may insure \$500 for life upon his own or his wife's life, or the wife upon the life of her husband, of the age of thirty years, (and in like proportion for other ages,) by paying 25 cents weekly, or on \$1000 by paying 50 cents weekly, the policy always remaining with the Company, with the premiums paid endorsed thereon; and in case of death they will be entitled to the amount thus insured, deducting therefrom the balance remaining of weekly payments, with interest, for the current year. No risk will be taken on a single life for more than \$5,000, until the profits of the Company amount to \$30,000, after which, according to the profits, the amount will be gradually extended to a sum not exceeding \$15,000.

The better to enable all persons to insure, the Company will annually issue Scrip certificates, of estimated profits, bearing interest at 6 per cent.—Whenever the accumulation of net profits of the Company shall exceed the sum of \$200,000, the excess may be applied from year to year, or semi-annually thereafter, towards the redemption of each year's certificates of scrip, in whole or in part, as may be determined on by the board of directors, priority to be given to the scrip first issued. The insured may borrow from the Company on his scrip, two thirds of the amount of the same at any time, which will enable him to use a portion of his profits for the payment of his annual premium, even before the redemption of the scrip. All classes of persons will thus be admitted and enabled to meet the premiums, and have the gain of the Savings Bank, with the profit on a large business, by an actual small investment or outlay of money.

All claims for insurance will be paid three months after satisfactory evidence of the death of the persons deceased is exhibited and approved. Should it any time be desirable for a person to sell his policy, where it is for life, the Company will purchase the same at an equitable rate.

Parties insured at the table rates of premiums, are not to pass south of the Southern line of Virginia and Kentucky, or east of the Mississippi River, between the first day of June and first day of November; but can visit any part of the United States or Northern British Provinces, between the first of November and first of June. By the payment of an extra premium, insurances can be effected by persons who desire to reside South during the interdicted time.

All persons whose lives are insured by this company, are permitted to travel on any of the regular mail routes, (within the limits prescribed in the policy) or on any of the Northern or Upper Lakes, by steamboat or other common mode of conveyance.

Extra hazardous risks will be taken on persons going out, or residing out of the limits of the policy, and embracing all parts of the world; also on all persons going to sea, and such other risks as may be specially agreed for, being more hazardous, to be expressed in their policies. The extra premiums to be computed upon equitable principles.

Insurances will be made on the lives of Military and Naval Officers, off or on duty, in time of peace, the premium to be settled according to circumstances of climate, locality, &c., as they may be more or less hazardous.

What can better illustrate the wise disposition of the Supreme Being, in the varying term of human life, than the certainty of the general laws that regulate its duration, and the reflections that arise from the contemplation of these laws operating constantly upon the human race? Life Insurance then rests upon the simple fact, that every individual of the human race has, at the period of his birth, a certain term of existence, which he will live through, or what is called the mean duration, or expectation of life at birth.

It is a question how such term of existence, or mean duration, is found. This is done simply by taking the number of years that have been lived through by a party from birth to death, and also of 1000 others born at the same time, and dying at all ages from 1 to 100 years old—the number of years thus lived by each person is added into one sum and being divided by the number of persons, the mean duration of the life of man is ascertained.

If it were found on trial, that on taking the result of the lives of 1,000 or 10,000 individuals, and deducing the mean duration; and then going through the same process with like numbers, and the mean duration of the latter differed widely from the former, it would be to no purpose to follow out experiments; but this is not the fact, and in nothing is the uniformity of the general laws of nature more powerfully exemplified, than in regulating the period of human existence. The result of experience is constant, that two bodies of individuals, each of 1000, living in the same country, and of similar occupations, have each a period of mean duration, which differs only a trifle from that of the other body. Apply this to insurance on life in the same body of persons; they pay a small sum or premium, annually, and the office, or Company, agrees to pay them annually a profit, and a certain sum at the death of each; as, by example, the average expectancy of life is found by experience, to be of a person in health of 25 years, 38 years more; and of 40 years 23 years longer; then by the tables of rates, the first has to pay \$20 40-100 a year during his life, to secure, \$1000 to be paid to his wife or children after his death; the second pays \$32, to insure the same; then taking the gain of interest, and other items, that make up the profits on Mutual Benefit, it is almost certain the amount of \$1000 insured will be much increased, when in the end it is to be paid to his heirs, all which is firmly established by the facts of experience. Life Insurance, therefore, on Mutual Benefit, is not a fictitious scheme to draw people into, for money-making purposes. Such an idea, if it exists, is most incorrect, and dissolved at once by the very fact, that this is a Mutual Benefit Company, and consequently any person taking out a policy, becomes a member by a small annual payment, and has a joint interest in its concerns, and a voice in its management. Founded on scientific principles, exemplified by experience, its real services then to all classes of persons, who are dependent on certain incomes, or salaries, professions, mechanical skill, or daily labor cannot be denied; and it has proved essentially beneficial to the families of such, in event of death, and is therefore an institution ranking among the noblest works of benevolence in the world.

Such being the equitable and beneficial principles on which Mutual Life Insurance is established, it presents a most suitable and favorable means of providing for the endeared and dependent lives of children; for what is the situation of a man, who, for the gratification of his affections,

surrounds himself with a wife and children, and lives in the enjoyment of those valued blessings, and knowing that in an instant, the cessation of his life may throw them into a state of destitution! The neglect, then, of such a cheap and certain provision, is gross imprudence; for it is not merely a man's absolute duty, to provide while he lives the daily bread for his family, than it is a gainful leaving them to suffer penniless misery in the event of his death. It is then a religious as well as moral duty, to be easily accomplished by weekly, monthly, or yearly earnings—and this Life Insurance of Mutual Benefit, is the protection against such dreadful evils.

The observations and explanations above made on the principles of Life Insurance generally, and particularly the great and very superior advantages exhibited to the public by insuring in this Mutual Benefit Company; the credit which policies will give to men in trade, the gain it may be to all classes in their business vocations, and the duty of all to provide for their families, should induce every person to give this subject a careful consideration, remembering the injunction of Scripture, that "if any provide not for his own, and especially for them of his own house, he hath denied the faith, and is worse than an infidel."

Hyer's Pills.

The American Improved Hygienic Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.—This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative powers. During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Mrs. Jervis' Cold Candy.

VERY ingredient in Mrs. Jervis' Cold Candy is admitted good by every physician in the effect of curing colds. The scientific and happy combination of the herbs it is composed of, and the innumerable certificates that come pouring in daily, unasked, prove that Mrs. Jervis' Cold Candy stands pre-eminent, as a certain cure of colds, coughs, hoarseness, sore throat, whooping cough, croup, asthma, catarrhs, palpitation of the heart, night sweats, difficult or profuse expectoration, slight bronchitis, influenza, &c., and all the affections of the lungs that lead to consumption.

In cleansing the voice its effects are certain.

The Good Things of the Season.

FOR Parties, Holiday Presents, &c.

WINTER evenings and YOUNG'S Variety Store form pleasant associations for the inhabitants of Newport. There is nothing so desirable that can contribute to the comfort of all, that cannot be obtained at this store, and all as low and a great many much less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.

Western Apples from \$1 75 to \$2 12 per bushel; small-barks \$2 per bushel; peanuts \$1 62 per bushel; chestnuts from four to five dollars per bushel; almonds one shilling per pound; new raisins, figs, dates and currants 12 1/2 cts per pound; we sell these last named articles at wholesale prices. Prunes 20 cts per pound; grapes 25 cts; new citron 28 cts; preserved ginger \$1 12 per jar, or 30 cts per pound, in small quantities; candies and all kinds of confectionery cheaper than they have ever been sold at any other store in town, at wholesale and retail, always fresh and of the finest quality; for the truth of this we wish every one to come and judge for themselves.

This is no idle advertisement merely to draw people to my store to disappoint them, but a plain statement of facts, which all may ascertain by calling. Also several kinds of Cough Candy, warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.

Fancy articles and toys of every description, in any quantity, such as silk purses, pocket books, cigar cases, pocket knives, sisters, razors, razor strops, hair, clothes, tooth, and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and Highland do, combs of all kinds, cologne, hair oil and pomatum, cigars, tobacco, and everything that is ever kept in a confectionary and variety store.

New sweet cider on draught or by the barrel.

Brownell's Cooking Range.

THE subscriber has just completed the invention of a new Cooking Range, to which he invites the attention of the public. This Range possesses qualities for expeditious boiling and cooking that other Ranges do not, and it occupies but a small space of room.

Brownell's Cooking Range has six right inch boilers, any two, or four of which, can be thrown into one, so as to admit of a large boiler; and it is provided with a set of rings so that any size furniture can be used on it. Its Oven is large, convenient of access, and having an upward draft, it bakes evenly with a small quantity of fuel.

One of these Ranges is in successful operation at the store of the subscriber, subject to the examination of the public, who are invited to call and take a look at it. WILLIAM BROWNELL.

China, Glass and Earthen Ware.

At Wholesale and Retail.

THE Subscriber has just opened at the Glass and China Store, Colonnade Row, No. 2, Thames street, the most extensive, and best selected stock of China, Glass, and Earthen Ware, ever offered in Newport, to which the attention of the public is invited. His Stock consists in part of the following articles:—Lamps.

Solar Lamps, Chandeliers, Candelabras, Lustres, Girandoles, Hall Lamps, Side Lamps, and in fact, every kind of Lamp now in use, varying in prices from almost nothing up to \$25.

China Ware.

Several splendid Dining Sets of pure imperial China Ware, warranted superior to anything ever before offered in this market; Splendid pure China Tea Sets, of the latest and most approved patterns, for sale low.

He also has a great variety of common Ware, for family use, which we will sell very low. He is now prepared to furnish families, and also to fill orders at the shortest notice; he also keeps all kinds of ware to let for parties, &c., on the most reasonable terms.

JOHN T. STANHOPE.

Coggeshall & Bliss' Patent Cooking Range.

THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place, and by a simple, though effective apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains an Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.

IF Rev. B. HIBBARD'S Vegetable and Anti-Bilious FAMILY PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them, you do not find that one of these pills does more good than from four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without an equal in all Bilious attacks, affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insensible perspiration through its accustomed channels, and relieving at once the internal organs. Also in old chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away.

Half a Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one quarter of a pill, of 7 years and over, half a pill. These Pills are purely VEGETABLE, and may be taken under all circumstances, without regard to drinks or diet.

Roake's Iodine Liniment.

A SAFE and certain cure for Rheumatism, or either chronic or inflammatory—Paralysis, or loss of the use of the limbs, contractions of corals and muscles, and gout, it matters not of how long standing; sprains, bruises, tumors, hams swellings, and enlarged joints, yield to a few applications of this Liniment. It has been used with incredible success in scrofula or King's evil, enlarged glands of the spine and hip joints, tic douloureux, and all nervous affections. It is invaluable, and acts like a charm, stopping the bleeding of fresh wounds, and causing them to heal in a few days. It has never been known to fail curing the most stubborn ulcers or fever sores and swelled legs, pain across the kidneys, in the chest, side, also stiff neck, sore throat and croup.

It speedily and effectually eradicates cutaneous eruptions of the skin, in the form of salt rheum, ec
